CORI Checks

Under Massachusetts law (2002), ALL persons in the schools, employees and volunteers must have a CORI report (Criminal Offender Record Information) on file.

This background check has always been done for the paid staff, but now the law extends to volunteers who participate in our program in any capacity – field trips, classrooms, or volunteers, tutors...all of us.

Please be mindful that CORI checks take two weeks to process. If you are planning on volunteering or attending a field trip you must fill out the form in advance and be cleared before participating. Thank you, as always, for your cooperation.
