

A Letter from the Director of Development

I was thrilled to join the faculty and staff this year to help create and direct the new Development Office. As an alumna of St. Francis of Assisi School and a current parent of a fourth-grade student, I have a deep commitment to the mission and vision of our school community. I look forward to working with our many constituents including students and their families, faculty and staff, alumni, parishioners, and area communities to help grow the foundation of Catholic education.

Saint Francis of Assisi set an example for us all as an “instrument of peace.” Now, more than ever, we need to academically prepare our children for this technological age with a vigilant eye toward his important message.

I invite you to partner with me on this promising endeavor and welcome your assistance, comments and suggestions. Please feel free to contact me by phone, e-mail, or just stop in my office on the first floor, adjacent to the Principal’s Office, Monday, Wednesday and Thursday 10 a.m. - 2:00 p.m.

Sincerely yours,

Kathleen T. Cummings

Director of Development
